METRO DELIVERS QUICK REFERENCE

LABELING

Each package must have a unique transaction number as part of the address. This number will be used to assist in tracking all shipments.

Each transaction number has two parts:

1. **Delivery number** of the shipper and the receiver separated by a ">"
2. **Date and package number**
 - The date should be all numbers with no separation between month and day and is followed by a "-" and the package number.
 - For the date, use the date of the next scheduled pick-up, not the day the entry is made.

For example: If METRO (154) is sending a package to Hunter College (104) on November 14th and it is the first shipment, the label should read:

Hunter College, CUNY
Wexler Library
695 Park Ave. 3rd fl
New York, NY 10065
154>104 1114-1

SHIPPING LOG

A shipping log must be prepared for all shipments (example below). The log functions as a receipt and should be signed by the driver. All logs should be retained. The shipping log should be put out for each pick up day.

A copy of the shipping log may be printed out at: http://metro.org/media/files/files/ef5d6204/res_shiplog.pdf
